

TMVJ-1L-12

1U 19" pull out distribution cabinet for 12 UBC SENKO adapters *EXCLUSIVELY DEVELOPED FOR LEMO*

Description:

The **TMVJ-1L-12** modules are specially designed and intended for terminating optical cables utilizing UBC SENKO adapters.

Cabinets are equipped with a pull-out tray, allowing easy access to optical couplers and fusion splices inside the distribution panel. Once the entire front panel is slid in, it prevents them from damage and unauthorized tampering. The distribution cabinet is constructed from the solid alloy of aluminum and magnesium ENAW-5754, ensuring high strength and lightweight properties. Moreover, the material meets the most stringent anti-corrosion requirements.

The entire distribution system **TMVJ-1L-12** including the front panel, accommodates the termination of up to 12 optical UBC SENKO adapters.

TMVJ-1L-12

Key features:

- Compact, aluminum-magnesium alloy ENAW-5754 material chassis design with easy internal access
- Designed for cable or microtubes termination
- Coupling up to 12x SENKO UBC adapters or theirs equivalents mounted on the face panel
- Durable powder coat finish in **RAL 9005** colour (black)
- Design is suitable for **1U 19" rack** systems

Technical specifications:

PART NUMBER	Size	Fibre adapters type	DIMENSIONS (H x W x D) mm	WEIGHT
TMVJ-1L-12¹	1U	SENKO UBC	44 x 432 x 180	1.4 kg

¹ Including labelling strip
