

LMRS-1A LMRS-TD Nuclear Radiation Sensors

Description:

The LMRS Sensors are integral to the LMRG-8 Nuclear Radiation Monitoring System or other computer platforms, suitable for both civil and defense applications.

These sensors can be installed inside or outside vehicles and mounted externally on airborne platforms such as drones and UAVs. With a wide range of measurement and rugged enclosures, they ensure reliable performance even in the most demanding environments.

Features:

- Radiation Assessment
- Rapid Isotope Identification
- On-the-move Monitoring
- Real-time Threat Detection
- Rapid Response in Emergencies

Application:

- Military Armored Vehicles
- Law Enforcement Vehicles
- Border Cross Check Points
- Drones/UAVs
