

MOTB-002 Indoor Termination Box

Description:

Termination box MOTB-002 suits for jointing fibers with fiber pigtail and it protects fiber optic splices and helps to distribute. The termination box is either a wall-mounting type or desktop type, which is mainly used in telecommunication equipment room and network equipment room. Termination box MOTB-002 is suitable to connect the drop cables to the raiser fibers splices. It is also suitable to connect cable and pigtails. The termination box is for indoor wall mounting. MOTB-002 is applicable for splicing 2 pieces of fiber cable with max. diameter Ø16mm.

Features:

- Light weight, small size, easy installation
- Provide splice connection protection of fiber cable and pigtail
- Made of engineering plastic material, which has mechanical strength, therefore it is reliable and long lasting
- Slide-N-Lock fiber optic splice tray with its opening angle above 90°C. Therefore it is easy for installation and maintenance

Specifications:

Number of entry / exit ports	2
Number of splice tray	12
Max. fiber count	24
Max. number of pigtails	12
Dimensions (L x W x H)	197 x 110 x 44 mm
