

Data Exporter PC Software

Description:

The Data Exporter is a software utility for easy import measured data from OPTOKON measuring devices to PC. It allows creating *.xls file (MS Excel software) or export data to clipboard (for next processing). It is optimized for OPTOKON optical testers: PM-800, PM-212, PM-830 and OFT-820.

	A	B	C	D	E
1	OFT820	OFT8200008			
2	Cable	Fiber	WaveLength	dBm	
3	1	1	1310	-5.1	
4	1	2	1310	-5.24	
5	1	3	1310	-4.95	
6	1	4	1310	-4.74	
7	1	5	1310	-5.01	
8	1	6	1310	-6.36	
9	1	7	1310	-5.98	
10	1	8	1310	-6.05	

Features:

- Data exporting from internal memory (for example PM-212, PM-800 Power Meter)
- Creating MS Excel files
- Imports data from instrument to clipboard
- Recording Instrument serial numbers and Saving and browsing measurements

Table of compatibility:

Type	Firmware version
PM-212	3.1, 3.2
PM-212-MPO	3.4
PM-212-SI	3.2
PM-212-SI3	3.2
PM-800	3.1
OFT-820	3.1
OFT-820-POF	3.1

Application:

- Optical networks measurements
- Measured data processing
- Downloading data from Power meter
