# Easy Link - CPE Optical Outlet Box for Easy FTTH solution
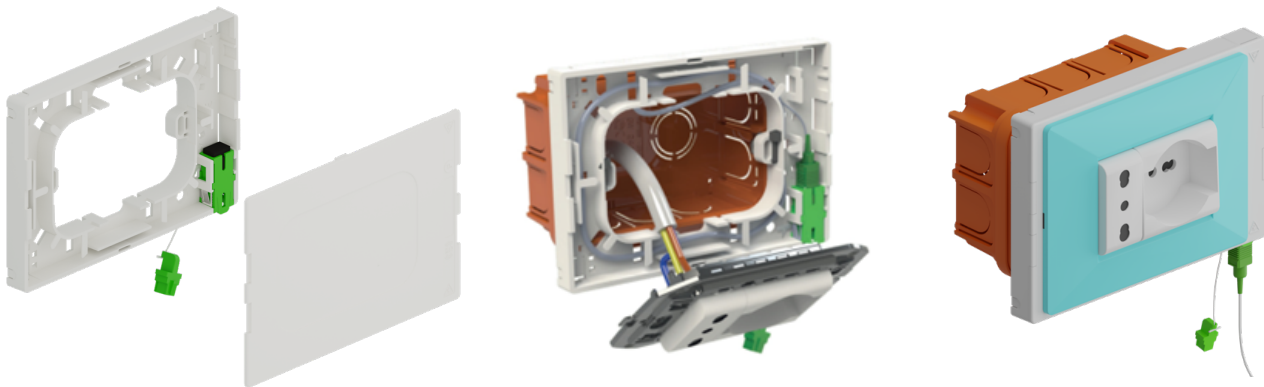

Description:

Optical outlet with universal wall box mounting. Easy Link is the ideal solution for FTTH installation in existing buildings. Thanks to the special cover with a breakable slot, Easy Link can be either wall mounted or installed onto an existing socket, even fully occupied by other services. The fiber cable on the system side can enter, even pre-connected, both flush with the wall and from the inside of the wall box. Easy Link is universal and compatible with any type of electrical building infrastructure system (power, TV, RJ45, etc.).

Features:

- Certifications CE and ROHS
- Material - ABS
- Weight – 17.2 g
- Dimensions – 138 x 96 x 13 (W x H x D)

Specifications:

## Solution - FTTH user outlet for existing buildings:

Easy Link can be installed on the wall or on wall boxes (recessed or cantilevered) even completely occupied by other services.

Easy Link has been chosen as the only FTTH socket that can be installed throughout all homes.

Easy Link complies with the technical specification drawn up by Open Fiber.

## ALL components for Easy FTTH (Multiservice system):
Easy Fiber + Easy Lock + Easy Link + Easy Key
